**Subject:** National Remedy Review Board

This is to let you know that we are trying to schedule a National Remedy Review Board (NRRB) meeting during the last week in October 2008 on the Lower Passaic River Early Action. As I wrote to you on June 25, 2007, EPA established the NRRB to review proposed high-cost cleanup decisions to help evaluate whether they are consistent with current law, regulations, and Agency policy and guidance. As part of the NRRB process, you, as the Technical Assistance Grant (TAG) recipient, are invited to summarize, in writing, any technical issues that you believe are pertinent to the cleanup decision, including any recommended approach and rationale for that recommendation. Your summary must be ten (10) pages or less and will be attached to the site information package that EPA sends to NRRB.

EPA plans to send a site information package to the NRRB by October 9, 2008 at the latest. Please send me your 10-page summary by October 3, 2008 to ensure its inclusion in the site information package.

Please let me know if you have any questions at 212-637-4427.
